EXPERIENCE

Excellence Technology | MERN Stack Development Intern | Link July 2025 – 15-Jan 2026

- Developed multiple full-stack MERN applications with scalable backend architecture and responsive user interfaces, ensuring smooth user experience.
- Designed and implemented RESTful APIs, optimizing server performance and reducing response time significantly.
- Implemented secure authentication using JWT and OAuth with role-based access control for multiple user types.
- Improved application structure by optimizing global state management using Redux and Context API, enhancing code readability and scalability.
- Deployed applications on AWS, Vercel, and Heroku using CI/CD practices for reliable and efficient delivery.
- Enhanced UI/UX using TailwindCSS and Material-UI, improving overall performance and user engagement.

PROJECTS

CareerLift AI – Smart Career Assistant Platform | Link

- Developed an AI-powered career platform featuring Resume Analyzer, Job Matcher, Interview Bot, Skill Gap Report, and Career Roadmap modules.
- Built a responsive frontend using React.js and integrated it with a FastAPI backend for high-performance API handling.
- Implemented secure API key-based authentication and ensured seamless one-to-one communication between client and server.
- Designed real-time AI-driven features for resume feedback, job recommendations, and mock interview generation.
- Optimized data flow and API interactions to ensure fast and scalable performance across modules.
- **Tech:** React.js, FastAPI, mongoDb, TailwindCSS, REST APIs

E-Commerce Web App with Admin Panel | Link

- Engineered a full-stack, fully dynamic e-commerce platform with real-time product listings, cart management, and seamless user experience.
- Integrated secure payment gateway enabling smooth checkout flow with transaction validation and order confirmation.
- Developed a role-based admin dashboard for managing products, orders, users, and inventory with real-time updates.
- Implemented robust authentication and authorization using JWT, ensuring secure user sessions and protected routes.
- Optimized backend APIs and database queries for efficient data handling and scalable performance.
- **Tech:** Next.js, React.js, TailwindCSS, Node.js, Express.js, MongoDB

SKILLS

Programming Languages: C, C++, JavaScript, HTML, CSS

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL, Firebase

Tools & Platforms: Git, GitHub, Postman, Thunder Client, VS Code

Cloud & Deployment: AWS

EDUCATION

Harcourt Butler Technical University

Master of Computer Applications

Kanpur

Aug 2024 – Jun 2026

Pranveer Singh Institute of Higher Education

Bachelor of Computer Applications

Kanpur

Jul 2020 – Jun 2023

HONORS & ACHIEVEMENTS

- Solved **350+ DSA problems** on LeetCode and earned **HackerRank Problem Solving certification**.
- Ranked in **Top 50** in GeeksforGeeks Job-A-Thon (national-level coding contest).
